

DIGITAL SIGNAGE EXPLAINED - BOARDROOM SOLUTIONS

Digital boardroom technologies offer systematic solutions that bridge the gap between remote and in-office environments.

Ethniks boasts customizable, end-to-end boardroom, AV (audio visual) and VC (video conferencing) solutions that effortlessly transform your meeting room into a dynamic virtual platform. Whether a Conference Room, Hot Desking or Huddle Room our comprehensive digital hardware and software solutions combined with superior AV, VC integration and BYOD (Bring Your Own Device), allow for seamless global online interactions where multiple participants can connect at the click of a button.

Create a modern workspace with scalable Boardroom Management Systems. Track upcoming bookings, real-time room availability and events, manage catering, and display room capacity and features from one centralized space. Welcome visitors with door signage reflecting meeting schedules, display wayfinding, directional mapping, and/or floor plans. Share digital dashboards, wireless presentations, and uninterrupted file sharing with wall-mounted interactive digital displays. Retain attention and immerse your audience with high-quality VC no matter the room size.
